## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-9, 11-16 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner indicated on the Office Action dated 8/1/2007 that dependent claims 6 and 10 were allowable if written in independent form. The limitations of the previously submitted claim 10, including the expander having expander sections separated by non-expander section and the expander driven into position via a displacer, were added to the previously rejected claim 1. The prior art of record teach the expander being wholly within the connector member, however there is no suggestion, nor would it be possible without destroying the invention, to drive the expander into the expanded position with a displacer. The best prior art of record is the UK Patents by Bishop (GB 2291687). Consequently, other independent claims 14 and 16 add further window sash and sill structure to the allowable structure found in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
